Employer Cost Control

Employers decide how many credits / dollars will be applied to employees' Health Spending Accounts each year. Therefore, the employer knows the maximum amount to be spent on the employee benefit plan in a given year.

Employee Flexibility

Small business clients deserve to have affordable healthcare benefits designed specifically to fit each family's needs. Employees use their flex credits / dollars on the health and dental services they need when they need them.

Employer Low Processing Costs

No monthly premiums to pay. The PHSPCanada plan offers one of the lowest processing fees in the industry and only as claims are submitted. Incentives to lower.

Employee & Employer Tax Savings

Business Owners and employees benefit from tax savings when employers offer the Private Health Spending Accounts (PHSP) to their employees. Health expenses become a tax-deductible business expense and reimbursements are paid out, tax-free, to the recipient.

The Value of Association

(Bulk Buying Power)

The higher member participation, the lower the cost. Superior products and a high level of service.

PLAN DESIGN CHOICES

Traditional

Designed to provide the employees with traditional style of group coverage.

Flexible Spending Account

Customized by the employer, with a designed dollar amount for claims, allowing the employee to claim what they need, when they need it.

Hybrid

Designed with the employer to mimic the concept of a traditional plan with the employer control of the flexible plan.
